- Ensure program delivery, including maintenance of client data, complies with relevant legislation, contract requirements and best practice standards;
- Cultivate and steward strategic partnerships for research, expansion and funding opportunities;
- Lead program expansion to support system change through the province;
- Lead, coach, support and manage performance of a staff team of supervisors, coaches, intake workers and administrative staff;
- Develop and monitor the annual budget and operating plan to support the program.
- Communicate with funders as outlined in funding agreements, including financial and narrative reports.
- Develop and oversee promotion and communication strategies
- Explore, help develop and oversee program integrity and implement change as required;
- Prepare monthly, quarterly and annual reports as required
- Other duties as required.

WHAT YOU WILL BRING TO THE ROLE:

You will have a Master's Degree or equivalent experience in Human Services (for example Social Work, Public Health), Business Administration or related discipline, along with 5-7 years of experience in leading a highly effective team of employees.

In addition, the ideal candidate will have:

- A good understanding of mental health issues and/or child development
- Solid project management experience, including project planning, resource and financial management along with effective communication skills for successful project delivery;
- Solid leadership skills with the ability to lead, motivate, resolve conflict, and lead a high performing team in a unionized environment.
- Experience with establishing and maintaining effective relationships and partnerships with internal and external multi-sectoral stakeholders (e.g., government, health authority partners and community members) along with excellent communication and presentation skills.
- Solid experience in developing and monitoring an annual budget and operating process

- Computer literacy skills including Microsoft Office, CRM or case management database experience, comfort with using and trouble-shooting various technical systems related to telephonic and video delivery mediums;
- Flexibility and ability to thrive in an environment with constantly changing conditions and competing deadlines.
- Ability to handle sensitive and confidential information and matters in a trusted and responsible manner
- Keen understanding of group dynamics

The following qualifications would be considered assets:

- Familiarity with the Brief Child and Family Phone Interview, particularly from a data collection and analysis perspective;
- Training in research methodology and data analysis;
- Grant writing or case for support development experience;
- Experience in not for profit sector, social services, or family services;
- Training in cognitive behavioural therapy along with clinical experience
